

THE C. G. JUNG INSTITUTE OF  
SAN FRANCISCO PRESENTS A  
DONOR APPRECIATION EVENT:

# FOUR PSYCHOLOGICAL CAPACITIES ESSENTIAL FOR INDIVIDUATION

SUNDAY, FEBRUARY 8, 2015

WITH SETH ISAIAH RUBIN,  
MEMBER ANALYST

**This presentation builds on research conducted in Jungian response to the psychoanalyst and educator Robert Wallerstein's landmark book,**

*Forty-Two Lives in Treatment: A Study of Psychoanalysis and Psychotherapy*, which established seventeen psychological capacities enhanced by psychotherapy. To these, analyst Seth Isaiah Rubin— with the help of colleagues and in consultation with Dr. Wallerstein—has added four capacities central to Jungian work: (1) the capacity to tolerate complexity, (2) the capacity to symbolize, (3) the capacity to imagine, and (4) the capacity to not know. Dr. Rubin will explore the implications of these capacities for individuation.

**SUNDAY, FEBRUARY 8, 2015  
1:00 - 4:00 PM**

**RSVP at [www.sjung.org](http://www.sjung.org). Or contact Helene Dorian at [hdorian@sfjung.org](mailto:hdorian@sfjung.org), or call 415.771.8055 ext. 210.**

*Seth Isaiah Rubin, a clinical psychologist in practice in San Francisco, is an analyst member of the C. G. Jung Institute in San Francisco. From 1998 to 2004, he was Principal Investigator of the San Francisco Jung Institute Psychotherapy Research Project.*
